Partners' Declaration  
for the Year Ended 30 June 2013**

---

The partners declare that the partnership is not a reporting entity and that this special purpose financial statement should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

The partners of the partnership declare that:

1. The financial statements and notes, as set out in the financial report, present fairly the partnership's financial position as at 30 June 2013 and its performance for the year ended in accordance with the accounting policies described in Note 1 to the financial statements; and
2. In the partners' opinion there are reasonable grounds to believe that the partnership will be able to pay its debts as and when they become due and payable.

## **Notes to the Financial Statements**

### **For the Year ended 30 June 2013**

---

#### **1 Significant Accounting Policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

##### **Basis of Preparation**

In the partners opinion, the partnership is not a reporting entity because there are no users dependent on general purpose financial statements. These are special purpose financial statements. The partners have determined that the accounting policies adopted are appropriate to meet their needs.

The financial statements have been prepared under the historical cost convention and do not take into account changing monetary values. The accrual and going concern basis have been adopted.

##### **(a) Revenue and Other Income**

Revenue from the sale of goods is recognised at the point of delivery as this corresponds to the transfer of significant risks and rewards of ownership of the goods and the cessation of all involvement in those goods.

Revenue is measured at the value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. For this purpose, deferred consideration is not discounted to present values when recognising revenue.

Interest revenue is recognised using the effective interest rate method, which for floating rate financial assets is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

Investment property revenue is recognised on a straight-line basis over the period of lease term so as to reflect a constant periodic rate of return on the net investment.

All revenue is stated net of the amount of goods and services tax (GST).

##### **(b) Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

##### **(c) Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

##### **(d) Employee Benefits**

Provisions for annual leave and long service leave arising from employee services rendered are recognised and have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs.

# Contach Metal Industries & Albany Campers

## Notes to the Financial Statements

### For the Year ended 30 June 2013

---

(e) **Property, Plant and Equipment**

Property, plant and equipment are carried at cost, independent or management valuation. All assets, excluding freehold land and buildings held for investment, are depreciated over their useful lives.

The depreciation method and useful life used for items of property, plant and equipment (excluding freehold land) reflects the pattern in which their future economic benefits are expected to be consumed by Contach Metal Industries & Albany Campers. Depreciation commences from the time the asset is held ready for use. Any leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The useful lives used for each class of depreciable asset are considered to fall within standard parameters. Standard rates of depreciation have been used for each class of asset.

(f) **Income Tax**

The partnership is not directly subject to income tax as its taxable income is recognised in the income tax returns of the individual partners. Therefore, no provision for income taxes has been made in these financial statements.

(g) **Intangibles**

**Goodwill**

Goodwill is recorded at the amount by which the purchase price for a business combination exceeds the fair value attributed to the interest in the net fair value of identifiable assets, liabilities and contingent liabilities acquired at date of acquisition.

Gains and losses on the disposal of a business include the carrying amount of goodwill relating to the business sold.

(h) **Trade and Other Receivables**

Trade receivables are recognised initially at the transaction price (i.e. cost) and are subsequently measured at cost less provision for impairment.

At the end of each reporting period, the carrying value of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately in the financial statements.

(i) **Inventories**

Inventories are measured at the lower of cost and net realisable value. Costs are assigned on a first-in first-out basis and include direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenses.

(j) **Trade and Other Payables**

Trade payables are obligations on the basis of normal credit terms and do not bear interest. They are recognised at their transaction price.
